SKILLS

Core Java

OOPS

SQL

React.js

JDBC

Servlet

JSP

Spring Boot

HTML

CSS

INTERESTS

Problem Solving

History Enthusiast

Music

Travel

EDUCATION

B-Tech in Electronics communication Engineering

NRI Institute of Technology

06/2019 - 06/2023

8.0/10

Intermediate Education

MNM Junior College

06/2017 - 04/2019

9.15/10

Secondary School

Pragathi Vidyanilayam

06/2016 - 03/2017

9.5/10

CERTIFICATES

Full Stack Java -Developer (01/2024 - 08/2024)

This certification covers core Java programming ,spring Boot ,RESTful APIs ,database management with MySQL .It also includes hands-on projects that invoke building full-stack applications from scratch.

PROJECTS

Employee Management System

- As we know employees are the backbone of a company and their contribution plays a major role in organization success. Using Employees Management System we can maintain the records of each employee in a organization.
- This software allows the administrator to edit employees, add new employees, transfer/promote/terminate employees.
- The Employee Management System project is a developed by using Java,SpringBoot,React Js And SQL Database.

Wind and solar Mobile Laptop Charging System

- In the proposed work, wind energy and photo energy is used to get some amount of electricity with the help of solar panels and wind turbine.
- To replace conventional energy sources, solar photovoltaic system has been given highest priority as the most effective all other renewable sources of energy.
- It is designed by using raspberry Pi Pico, it comes under the category of ARM family.

ACHIEVEMENTS

Successfully published research paper on IEEE Conference. (2023)

Acted as a student organizer in SUNRISE2022 FEST conducted by NRI. (2022)
